Good idea, Jack. We'll need to coordinate this briefing with the Commission agenda, of course, through the Chairman's Office.

Regarding SOARCA as discussed yesterday:

There is a recurring item tracked by SECY (SRM-CMSY06-0064 dated 4/2/2007) which requires keeping the OCM informed on SOARCA by conducting periodic TA briefings. [Next due date is 9/10/2010]

My thought is to perhaps do this brief next month with your latest information such as the sensitivity/uncertainty analysis as requested by ACRS; and provide other info like the peer group review and indicate the slippage.

After the meeting with the TA's we should have a feel if we still need to draft a memo to the commission.

Of course, I do not know if there are other SECY documents which require reporting etc. But my rudimentary look does not show any.
